

HOUSE WITH LARGE PLOT IN PALAU DE SANTA EULÀLIA

In the charming village of Palau de Santa Eulàlia lies this property featuring a masía dating back to 1836 and a large plot of land located just a few meters away, offering multiple possibilities. The property has a built area of 359 m² spread over several floors and retains the original character of period houses, with stone walls, high ceilings, wooden beams, and spacious rooms. The ground floor, measuring 103 m², is currently used as storage and preserves areas with stone vaults that add significant architectural value. The first floor, with 134 m², houses the main living area, including a kitchen, dining room with fireplace, and several rooms that can be adapted to different uses. The upper floors, measuring 91 m² and 31 m² respectively, contain additional bedrooms and provide access to a large terrace with open views of the natural surroundings. The land, with a total area of 6,137 m², combines urban and rustic sections. Its flat and sunny layout makes it ideal for a vegetable garden, landscaped garden, leisure area, or even new development projects in accordance with urban planning regulations. The property offers peace and privacy, surrounded by nature and with easy access to Figueres, the Costa Brava, and nearby towns. A wonderful opportunity for those wishing to restore a historic masía and transform it into a family residence, rural accommodation, or a unique project in the heart of the Empordà.
